

CIBC Capital Markets

We provide integrated capital markets products, investment banking advisory services, corporate lending and top-ranked research to corporate, government and institutional clients around the world. We also deliver innovative banking solutions and investment products to CIBC's retail, wealth and business clients. Our goal is to be the leading Capital Markets franchise in Canada and the lead relationship bank for key clients globally.

Global Markets

Our Global Markets business comprises our sales, trading and research teams spanning cash and derivative products in foreign exchange, commodities, rates and equities in addition to securitization, money markets and more. We are widely regarded for our capabilities and leadership in these areas and are focused on investing in technology and talent to further meet client needs. This business operates key financial centres in Canada and around the world.

Members of our Global Markets team come from diverse educational, professional and internal backgrounds and designations including Commerce, Economics, Mathematics, Engineering, Computer Programming, CPA, CFA, MBA, Middle Office, Finance and Risk Management.

How the Program Works

Our summer program provides successful candidates the opportunity to gain experience on our Equities, Fixed Income & Currencies Trading floors. Experience will include:

- Orientation, including classroom training
- An assigned buddy and mentor
- Scheduled learning sessions throughout the summer
- Networking opportunities
- A formal evaluation process

Most importantly, Summer Analysts interested in pursuing a career with CIBC will be given consideration for full-time opportunities in the Global Markets Sales & Trading Rotation Program.

Summer opportunities with our Global Markets Trading Floor may include

- Commodities
- Derivatives
- Electronic Trading
- Equity Sales and Trading
- Fixed Income/Money Markets
- Foreign Exchange
- Prime Brokerage
- Securitization
- Growth Markets

Key Accountabilities/Activities

Summer Analysts will need to be effective communicators capable of building relationships both internally and with clients. They will need to provide detailed analytical, financial modeling, structuring, research and transaction support to senior professionals in their business, helping to identify opportunities to win business and execute transactions.

Requirements

- Enrollment in an undergraduate degree in Commerce/Economics/Mathematics/Engineering/Computer Programming to be completed preferably by August 2018 or 2019
- Knowledge of business, economics and/or financial markets acquired through education and/or experience
- Highly effective written and oral communication skills as well as excellent presentation skills and an ability to explain complex concepts
- Strong interest in and knowledge of financial markets
- Strong technical, computational and analytical skills
- Strong orientation to excellence and a focus on results
- Excellent interpersonal skills, a proven ability to contribute to high performance teams and a demonstrated commitment to acting with integrity
- Ability to multi-task and meet the demands of a dynamic and fast-paced market environment
- Proven record of academic success, teamwork and extracurricular activities
- Must be legally eligible to work in Canada at the location(s) specified below and, where applicable, must have a valid work permit or study permit that allows the candidate to fulfill the requirements of the role

Opportunities for Students
